

Two years ago before my daughter was born, I decided I wasn't going to listen to oppressive music besides K-Love. K-Love has changed my outlook on life and made a positive change in my soul. I even got my husband to listen to it and now when he drives to work he hears positive music. Now my daughter of 2 years is listening to K-Love and not hearing profanity or suggestive lyrics. She hears positive music and she even sings to it. That made my heart float on end to know that God was working through K-Love to give my daughter peaceful and joyous music. I even managed to get my husband's family listening to it in Ohio. I get important info on topics in the news and I hear it there first before on Tv. If you take K-Love away from the air, you would be forcing a lot of people to listen to oppressive music that has no meaning and doesn't discuss important issues anymore. K-Love has made an awesome change in my family and I know many more families would be heart broken to have their positive music taken away. So before you take away K-Love from my area I suggest sit down, relax, and listen to K-Love for a couple hours in your area and you will see the positive impact it has on people. Thanks for your time.
